

COLUMBUS MOTHER AMAZED BY HER CHILD'S NATURAL ABILITY TO CHOREOGRAPH DANCE!

Nurture your child's **creativity** and give them an introduction to the world of **choreography** – where **music** and **movement** are their art supplies.

Is there a little dancer in your living room? Keep the magic alive!

It's never too early to encourage your child's natural genius. Their early experiences with visual expression could have a significant impact on how they communicate their ideas effectively at school and work, sell their skills to potential employers, creatively promote their products or services as entrepreneurs, and, of course, express themselves artistically.

Shelby's Dance Experiences will help keep them tuned in to their natural ability to use the visual elements of movement, form, and space to get their message to their audience. Today that might be you in your back yard or livingroom...tomorrow it could be the world by way of stage, movie screen, television, computer screens, mobile devices, and other places we can't yet imagine. Those who can best access their innate creativity and communicate their ideas effectively have a distinct advantage in our increasingly audio-visual, idea driven world.

And, best of all, they get to enjoy these benefits while they have fun making and performing dances both on their own and in collaboration with their new dancer friends! Sign up today to reserve your spot before it's too late!

Complete and return the form below. Classes begin 9/5/2017.
